

## GREEN TECHNOLOGY INSTRUCTOR-LED COURSES

### BPI BUILDING ANALYST TRAINING

#### What is BPI?

The Building Performance Institute (BPI) is a nationally recognized institute committed to the development of a highly professional home performance industry, and is currently the nationally recommended certification for energy auditors. BPI has served the Engineering, HVAC, Home Inspection, General Contracting and Multifamily Building Performance Industries since 1993. In order to teach BPI Courses, you must either be a BPI Affiliate (like CleanEdison) or partner with a BPI Affiliate.

#### Why become a BPI Certified Professional?

1. Increases your likelihood of finding a job in the growing green economy
2. Build a stronger, more credible name for yourself with a nationally recognized building performance certification.
3. Professional development
4. Learn the fundamentals of home-energy performance evaluation and assessment.
5. Promote sustainability through your business operations.
6. Add home-energy assessments and retrofits to your list of services.
7. Foster environmental stewardship

**Course Description:** The goal of this course is to prepare students for a real world application of skills by providing a comprehensive understanding of all matters relating to the Building Performance Institute's Building Analyst Exam. Through hands-on training, students will have the opportunity to see classroom fundamentals in practice. Through our customized training curriculum, students will learn the "house-as-a-system" approach to contracting and home assessment and ultimately be able to identify the causes and solutions for issues such as energy efficiency, air quality, safety and durability. By the end, students will be prepared to pass the written and field examinations - administered by our instructor - that is required to achieve BPI's Building Analyst Certification.

#### Class Highlights:

- On-Site Field Visit
- 1-on-1 Field Testing
- In-Class BPI Exam
- 20 hours Classroom Training
- 8 hours Field Training
- BPI Building Analyst Written Exam
- BPI Building Analyst Field Exam
- CleanEdison Course Workbook CleanEdison Field Guide
