**President's Report**

*Kudos*

Congratulations to our Physical Therapist Assistant Program and its director, Bridget Webb, who received full accreditation from the Commission on Accreditation in Physical Therapy Education (CAPTE).

*State Budget*

President Cummiskey spent much of the last week or so attending meetings and conferences that focus on the concerns regarding the 2015 State Budget. Generally, the news is not positive—state revenues are down this year, with the likelihood of overall state revenue being down 1% by

year's end. The bad news is that the projection for this year was a minimum of a 2.0% increase. This not only affects the close of the current budget but affects the carry-over effect for the next fiscal year.

The Governor vetoed numerous bills that he said added to the State's revenue loss, but he has not indicated what he might do with the State budget. Unfortunately, it appears he may choose to withhold some or veto the entire \$6 million dollars in equity funding the legislature designated for community colleges, and he could withhold some of the 5% increase higher education received as well. The potential net impact of these actions would cost Jefferson College over \$600,000 in revenue for next year—most of which we accounted for in our budget assumptions. As you will recall in our presentation, we are anticipating only a modest increase in state funding for next year.

### *Summer Enrollment*

Continuing the trend we are seeing throughout the state, our summer enrollment this year is 1,787 students, taking 9,295 credit hours, a 10.5% decrease from last year. Because of the low number of students typically enrolled for the summer, the percentage decrease seems large—but to put these numbers into perspective, we are still serving over 500 more students than six years ago. The bigger concern is that we are seeing significantly lower enrollment activity for the Fall semester—currently we are sitting at roughly a 17% decrease. However, as you have seen in previous budget assumptions, we expect that gap to close to an 8% decrease by August.

### *MCCA*

MCCA held its annual Trustees and Administrative Professionals Conference before Memorial Day at the Lake of the Ozarks. Session topics included a presentation from Jim Moody over concerns stemming from the passage of tax reform (Senate Bill 509) and its impact on Missouri's budget; Legal issues in higher education were discussed by our legal counsel, Tueth Keeney; other topics discussed were the difficulty in balancing the concept of "open access" with "ability to benefit"; "Innovation Campus" programs in Missouri; and Board/President relationships.

### *Board Forum*

Last week President Cummiskey attended the CBHE Forum which was informative, focusing on degree attainment, why it is important, and what Missouri is doing. The major topics discussed included:

- a. The current Missouri financial outlook and the budget projections for 2015-16 was presented by State Budget Director Linda Luebbering—who raised numerous concerns about the decrease in Missouri's revenue stream and forecasted greater problems for next year.
- b. The Indiana Higher Education Commissioner discussed how that state is advancing public education policy.
- c. A director at the Association of Governing Boards of Universities and Colleges discussed current Board challenges.
- d. Discussion continued on removing barriers to degree attainment.
- e. Efforts to more closely link higher education with Economic and Workforce Needs.

- Our enrollment year-over-year decrease is now estimated at 8% (previously 3%), resulting in decreased revenues of \$189,000.
- State funding assumptions have been revised from a 4% increase to a 2% increase, resulting in a decrease in revenues of \$120,000.
- Bookstore revenues have been decreased \$25,000 due to revised enrollment projections.
