

HIM Careers

SEEKING A NEW, EXCITING PATH?

Seen it all in your part of the healthcare world? Looking for a new job in high demand, but still enjoy the scenery in the healthcare field? Partner with AHIMA and CAHIIM on your professional journey and pursue a leadership role in ensuring effective health information management (HIM) for quality healthcare.

CAHIIM-accredited academic programs provide the knowledge and skill set needed for success as an HIM professional. Technology is developing at an extraordinary rate, and HIM pros need to stay on top of evolving healthcare delivery models to ensure the protection, quality, and integrity of patients' health information.

IS HIM THE FIELD FOR YOU?

Through a CAHIIM-accredited HIM program you can:

- Gain HIM skills and knowledge demanded by employers now and in the future
- Find the perfect job that permits swift progression from entry-level roles to skilled technician positions, to the middle, senior, and executive management levels
- Experience the flexibility of an HIM career in any number of settings: hospitals, clinics, and doctors' offices; clinical research and pharmaceuticals; insurers and regulatory bodies; public health and government policy agencies and more.
- Be recognized for your professional knowledge, expertise, and ability to bring strategic value to employers upon earning an academic degree.
- Develop a professional network to build an impressive future career, achieving professional-level income and job satisfaction.

BECOMING AN HIM PROFESSIONAL

Haven't worked in the healthcare field before? AHIMA and CAHIIM can open doors for you. Expand your core professional competencies in business, management, and leadership. Your current knowledge and experience form the foundation for a wealth of marketable new skills. Do you have knowledge and experience in the following areas?

- Information technology/informatics
- Nursing and clinical care management
- Financial and reimbursement management
- Data analysis and information management
- Legal/regulatory compliance

Consider expanding your current skill set through our academic programs and enter the HIM field.

WHAT'S IN STORE FOR YOU?

A treasure trove of knowledge and skills covering the following HIM knowledge domains:

- Data and Information Governance: Content, Structure, and Standards
- Information Protection: Access, Disclosure, Archival
- Informatics and Analytics
- Financial Management: Revenue Cycle
- Compliance
- Leadership and Management

WHY TRUST AHIMA AND CAHIIM TO GUIDE YOU?

For nearly a century, AHIMA has been the globally recognized leader in the HIM field. AHIMA credentials are the professional standards for both employers and fellow healthcare workers. CAHIIM-accredited academic programs adhere to demanding academic standards in preparing students for the HIM profession.
