

Jefferson College
Selection Process - Radiologic Technology Program

Candidates will be evaluated on a 500 point scale.
 Points will be awarded as described below:

Criteria	Formula for calculating points	Points Possible
Overall/ Cumulative GPA	GPA x 100/4.0	100
Work Keys	Score from exam	100
Recommendations	Avg. scores from 3 references	100
Observation narrative and evaluation	Scoring rubric	100
On-Site essay	Scoring rubric	100
Total		500

You will be notified via Jefferson College email or postal mail as to your standing. Please do not call, as this information is not given out by telephone. All applicants will be notified of their status – accepted or alternate. All applicants, accepted or alternate, must return the acceptance notification by the deadline indicating acceptance or decline of the offer as a class member or alternate. Please be sure you have a current address and email in MyJeffco. (Your Jefferson College email is considered your primary email)

The on-site essay will be conducted after all applications are processed. More information will be provided in the letter you receive from the Program Director.

We cannot offer admission to all the qualified applicants. Our enrollment is limited. The total number of students selected for the program has yet to be determined. Only students meeting the minimum requirements will be presented to the Admissions Committee. Final selection will be made by the Admissions Committee and the yet to be determined amount of applicants with the highest total scores will be selected for the class. The following information is evaluated during the selection process:

Personal References, GPA in Prerequisite and General Education Classes, Oral Communication Skills, Written Communication Skills, Professionalism, Critical Thinking Ability, Motivation for the Profession, and Realistic Expectations. Also, all materials submitted to program in previous years will be reviewed each year if applicant chooses to re-apply.

The information above is directly related to the program’s Mission, Vision and Goals. The information listed above is the only information that is considered during the selection process. Every effort is made to insure that the selection process is fair and equitable to all applicants. The selection process strives to achieve a well-rounded assessment of the student as a whole. The number of classes completed is just as important as the grades in those classes. Critical thinking skills are just as important as GPA.

It is the policy of Jefferson College and the Radiologic Technology Program not to discriminate on the basis of race, color, religion, gender, sexual orientation, age, disability, ancestry, national origin, or veteran status in its educational programs, activities or employment as required by law in regard to admissions, awarding financial aid, access to courses and programs, and all student services as well as the recruitment, admission and retention of students.
