 - 2 - 12 hour clinical days
 - 1 - 8 hour clinical day
 - 1 - 1 hour community meetings
 - 1 - 8 hour simulation days
- **Adult Health Nursing I Clinical**
 - 3 - 12 hour clinical days
 - 1 - 8 hour simulation day
- **Adult Health Nursing II Clinical**
 - 3 - 12 hour clinical days
 - 1 - 8 hour simulation day
- **Pediatric/OB Nursing Clinical**
 - 3 - 12 hour clinical days
 - 1 - 8 hour simulation days
- **RN Capstone Preceptor Experience**
 - 72 preceptor hours required
 - Student will arrange a collaborative schedule with preceptor

Clinical dates for RN evening/weekend students are day shift. Clinical dates will occur every other Saturday, or students may choose a weekday option based on availability. Weekday option clinical dates will occur every other week on **Monday** or **Friday** based on availability and group size.

All clinical dates and times are subject to change based on facility availability, group size, or unforeseen events. For attendance purposes, each 8 hour simulation day is counted as 12 hours of clinical time. Simulation clinical hours are held from 8:00 am-4:30 pm.

Every attempt will be made to keep clinical dates in a pattern, however, holidays and campus closings may prevent this. In such cases, clinical dates may need to be adjusted by a week. A change in pattern does **not** excuse the student from attending the clinical day.

RN Capstone Preceptor Experience dates will vary. After student is set up for preceptorship, student will collaborate with assigned preceptor to create schedule, subject to approval by Nursing Clinical Coordinator.

The Level II/RN program has full approval from the Missouri State Board of Nursing (MSBN).
