Course Description: We have all heard the stories of Law Enforcement delivering babies in the back of a car while waiting for EMS to arrive. This class is meant to prepare LEO's for that potential eventuality. This class has been designed to split time between didactic instruction and hands-on learning. During this class, participants will learn how to deliver a newborn, how to care for mother and baby afterwards, and how to effectively assess the mother prior to delivery. This class is POST approved.
