This course is designed to drastically reduce law enforcement Line of Duty Deaths (LODD's) and specifically addresses the operational areas of law enforcement that contribute to the greatest number of LODD's, but are in large part preventable. The Below 100 program is an effort to instill a culture of safety in law enforcement agencies that will progressively reduce national LODD's to Below 100 annually.

Course Description:

Over the course of the last ten years, approximately 150 law enforcement officers have died each year in the line of duty. Law enforcement is a dangerous profession and there will always be line-of-duty deaths at the hands of evil people. Unfortunately, too many officer deaths are due to so-called "accidents" or otherwise preventable circumstances. In some years, the number of deaths due to accidents is actually higher than the number of deaths due to felonious assault. Below 100 is an officer survival training program that will provide you with simple yet sound advice that will help to minimize risk in nearly any imaginable law enforcement scenario, eliminate preventable deaths, and reduce overall line-of-duty deaths to below 100 for the first time since 1944
