0800-1100 hours Legal Updates: A thorough knowledge/understanding of the Criminal Statutes is essential to the success of law enforcement and criminal prosecution. This training will begin with a review of recent changes and updates in the Revised Statutes of Missouri that affect law enforcement.

Course Description:

We will review the legal aspects of search and seizure. A primary component of the law enforcement function is the ability to make sound legal decisions. The manner in which an officer/deputy conducts police operations may impact the prosecution of offenders. The professionalism and credibility of officers/deputies and agencies will be scrutinized and challenged where cases are lost due to a technical failure of search and seizure rules and principles. Finally, officers/deputies and agencies may face exposure to civil liability where there has been some deviation from the constitutional rules.

1100-1200 hours Racial Profiling: We will also spend time discussing and reviewing racial profiling. We will review the damage it does to the agency and the community. We will discuss how it impedes the performance of officers/deputies and how to avoid it.
