### Missouri State Licensure Eligibility and the NCSBN Nursing Compact Act

Upon successful completion of the Jefferson College Bi-level Nursing Program, graduates are eligible to take the National Council Licensure Exam (NCLEX) through the National Council of State Boards of Nursing (NCSBN) for licensure in the state of Missouri. *Licensure in the state of Missouri does not guarantee licensure in other states.*

The Nurse Licensure Compact (NLC) allows a nurse to have one multistate license with the ability to practice in the home state and other compact states. Not all states currently participate in the NLC, including Illinois at this time. Illinois residents completing a Missouri Nursing Program will be eligible for Missouri licensure and must obtain information from the Illinois State Board of Nursing for licensure requirements.

It is the student's responsibility to obtain verification of participating NLC states and apply if the student wishes to do so. Verification of participating NLC states can be found at <https://www.nursecompact.com/>.

*I certify that all answers and statements on this application are true and complete to the best of my knowledge.

This includes disclosing all pleas of guilt or findings of guilt in a case where the imposition of sentence was suspended, whether or not the case is now confidential;

(27) Physical or mental illness, including but not limited to deterioration through the aging process or loss of motor skill, or disability that impairs the licensee's ability to practice the profession with reasonable judgment, skill, or safety. This does not include temporary illness which is expected to resolve within a short period of time;

(28) Any conduct that constitutes a serious danger to the health, safety, or welfare of a patient or the public.

3. After the filing of such complaint, the proceedings shall be conducted in accordance with the provisions of [chapter 621](#). Upon a

finding by the administrative hearing commission that the grounds, provided in subsection 2 of this section, for disciplinary action are met, the board may, singly or in combination, censure or place the person named in the complaint on probation on such terms and conditions as the board deems appropriate for a period not to exceed five years, or may suspend, for a period not to exceed three years, or revoke the license, certificate, or permit.

4. For any hearing before the full board, the board shall cause the notice of the hearing to be served upon such licensee in person or by certified mail to the licensee at the licensee's last known address. If service cannot be accomplished in person or by certified mail, notice by publication as described in subsection 3 of section [506.160](#) shall be allowed; any representative of the board is authorized to act as a court or judge would in that section; any employee of the board is authorized to act as a clerk would in that section.

5. An individual whose license has been revoked shall wait one year from the date of revocation to apply for relicensure. Relicensure shall be at the discretion of the board after compliance with all the requirements of sections [335.011 to 335.096](#) relative to the licensing of an applicant for the first time.

6. The board may notify the proper licensing authority of any other state concerning the final disciplinary action determined by the board on a license in which the person whose license was suspended or revoked was also licensed of the suspension or revocation.

7. Any person, organization, association or corporation who reports or provides information to the board of nursing pursuant to the provisions of sections [335.011 to 335.259](#)\*\* and who does so in good faith shall not be subject to an action for civil damages as a result thereof.

8. The board may apply to the administrative hearing commission for an emergency suspension or restriction of a license for the following causes:

(1) Engaging in sexual conduct as defined in section [566.010](#), with a patient who is not the licensee's spouse, regardless of whether the patient consented;

(2) Engaging in sexual misconduct with a minor or person the licensee believes to be a minor. "**Sexual misconduct**" means any conduct of a sexual nature which would be illegal under state or federal law;

(3) Possession of a controlled substance in violation of [chapter 195](#) or any state or federal law, rule, or regulation, excluding record-keeping violations;

(4) Use of a controlled substance without a valid prescription;

(5) The licensee is adjudicated incapacitated or disabled by a court of competent jurisdiction;

(6) Habitual intoxication or dependence upon alcohol or controlled substances or failure to comply with a treatment or aftercare program entered into pursuant to a board order, settlement agreement, or as part of the licensee's professional health program;

(7) A report from a board-approved facility or a professional health program stating the licensee is not fit to practice. For purposes of this section, a licensee is deemed to have waived all objections to the admissibility of testimony from the provider of the examination and admissibility of the examination reports. The licensee shall sign all necessary releases for the board to obtain and use the examination during a hearing; or

(8) Any conduct for which the board may discipline that constitutes a serious danger to the health, safety, or welfare of a patient or the public.

9. The board shall submit existing affidavits and existing certified court records together with a complaint alleging the facts in support of the board's request for an emergency suspension or restriction to the administrative hearing commission and shall supply the administrative

hearing commission with the last home or business addresses on file with the board for the licensee. Within one business day of the filing of the complaint, the administrative hearing commission shall return a service packet to the board. The service packet shall include the board's complaint and any affidavits or records the board intends to rely on that have been filed with the administrative hearing commission. The service packet may contain other information in the discretion of the administrative hearing commission. Within twenty-four hours of receiving the packet, the board shall either personally serve the licensee or leave a copy of the service packet at all of the licensee's current addresses on file with the board. Prior to the hearing, the licensee may file affidavits and certified court records for consideration by the administrative hearing commission.

10. Within five days of the board's filing of the complaint, the administrative hearing commission shall review the information submitted by the board and the licensee and shall determine based on that information if probable cause exists pursuant to subsection 8 of this section and shall issue its findings of fact and conclusions of law. If the administrative hearing commission finds that there is probable cause, the administrative hearing commission shall enter the order requested by the board. The order shall be effective upon personal service or by leaving a copy at all of the licensee's current addresses on file with the board.

11. (1) The administrative hearing commission shall hold a hearing within forty-five days of the board's filing of the complaint to determine if cause for discipline exists. The administrative hearing commission may grant a request for a continuance, but shall in any event hold the hearing within one hundred twenty days of the board's initial filing. The board shall be granted leave to amend its complaint if it is more than thirty days prior to the hearing. If less than thirty days, the board may be granted leave to amend if public safety requires.

(2) If no cause for discipline exists, the administrative hearing commission shall issue findings of fact, conclusions of law, and an order terminating the emergency suspension or restriction.

(3) If cause for discipline exists, the administrative hearing commission shall issue findings of fact and conclusions of law and order the emergency suspension or restriction to remain in full force and effect pending a disciplinary hearing before the board. The board shall hold a hearing following the certification of the record by the administrative hearing commission and may impose any discipline otherwise authorized by state law.

12. Any action under this section shall be in addition to and not in lieu of any discipline otherwise in the board's power to impose and may be brought concurrently with other actions.

13. If the administrative hearing commission does not find probable cause and does not grant the emergency suspension or

restriction, the board shall remove all reference to such emergency suspension or restriction from its public records. Records relating to the suspension or restriction shall be maintained in the board's files. The board or licensee may use such records in the course of any litigation to which they are both parties. Additionally, such records may be released upon a specific, written request of the licensee.

14. If the administrative hearing commission grants temporary authority to the board to restrict or suspend the nurse's license, such temporary authority of the board shall become final authority if there is no request by the nurse for a full hearing within thirty days of the preliminary hearing. The administrative hearing commission shall, if requested by the nurse named in the complaint, set a date to hold a full hearing under the provisions of [chapter 621](#) regarding the activities alleged in the initial complaint filed by the board.

15. If the administrative hearing commission refuses to grant temporary authority to the board or restrict or suspend the nurse's license under subsection 8 of this section, such dismissal shall not bar the board from initiating a subsequent disciplinary action on the same grounds.

16. (1) The board may initiate a hearing before the board for discipline of any licensee's license or certificate upon receipt of one of the following:

(a) Certified court records of a finding of guilt or plea of guilty or nolo contendere in a criminal prosecution under the laws of any state or of the United States for any offense involving the qualifications, functions, or duties of any profession licensed or regulated under this chapter, for any offense involving fraud, dishonesty, or an act of violence, or for any offense involving moral turpitude, whether or not sentence is imposed;

(b) Evidence of final disciplinary action against the licensee's license, certification, or registration issued by any other state, by any other agency or entity of this state or any other state, or the United States or its territories, or any other country;

(c) Evidence of certified court records finding the licensee has been judged incapacitated or disabled under Missouri law or under the laws of any other state or of the United States or its territories.

(2) The board shall provide the licensee not less than ten days' notice of any hearing held pursuant to [chapter 536](#).

(3) Upon a finding that cause exists to discipline a licensee's license, the board may impose any discipline otherwise available.
