ROSES.

The following superior Collection of Roses is worthy of especial attention; inferior and objectionable sorts having been carefully excluded; thus rendering the assortment much more valuable than any other of treble size for garden culture, as they are all perfectly distinct varieties.

HYBRID PERPETUAL ROSES. 50c. each.

Adele Mouze—rose, tinged with lilac	169
Alexandrine Bakmetif—full red	21
Auberon—brilliant, very fine bloomer	72
*Augusta Mie—brilliant rose, large and full	85
Augustine Mouchelet—fine rose	170
Baronne de Clapere—rose crimson	81
Baron Provost—deep rose, very large and double	165
Belle Americana—light red	20
Blanche Fleur—pure white clusters	31
Blanche Vibert—clear white	27

CONCLUDING REMARKS.

The Nursery is situated at the corner of Norton and North Clinton Streets, within two miles from the center of the City.
 The Fruit and Ornamental Department of this Establishment now comprises over 200 acres of ground, embracing a variety of soil well adapted to promote the vigorous growth and health of the various kinds of trees under cultivation.
 Great pains have been taken by the Proprietor to select the best varieties of Fruit that have originated in or been introduced into this country and everything which, upon trial, has proved inferior, has been rejected.
 Scions furnished in the season.—All pre-paid letters punctually answered, and Catalogues gratuitously forwarded, to applicants forwarding a stamp in a pre-paid letter.

S. MOULSON,
 50 FRONT-STREET, ROCHESTER, N. Y.

Justice Henry } Before of J. Foster Justice
James } of the peace of Jefferson County
John Thomas Minister
To John Thomas. You are hereby notified that
depositions of witnesses to be read in evidence
in the above cause on the part of the plain-
tiff will be taken at the office of J. J. Weaver
Justice of the peace in Henderson, Jefferson
County Mo on the 28 day of April 1860, betw
een the horns of S. Selock & M. and C. Selock
Jm
David Henry

I executed the within by deliver-
ing a copy of the same to a white
person of the family of John Thomas
over the age of fifteen years & at the
usual place of abode of John
Thomas in Jefferson County and
on this 24th day of April 1800

John O. Gish

LIST OF LEADING ITEMS

OFFERED AT THE

OLD ROCHESTER NURSERY;

For the Autumn of 1859.

The Subscriber, in presenting the within List to his Patrons, would say, that they will find it an exact inventory of what he has to offer, with the height of the trees; thus avoiding the annoyance arising from ordering advertised things that have only a place on paper—having himself oftentimes ordered from various extensive Catalogues, and received for answer “We have not got it,” or “It is too small,” or “Just sold out,” &c., &c.

More than twenty years experience, and the facilities arising from a liberal patronage, has warranted an extensive addition to the grounds, as well to the facilities for expediting the execution of orders.

The stock in point of magnitude is not exceeded by any individual establishment in the Union, and although this inventory may appear small in some particulars, it nevertheless as a whole offers an assortment sufficient for the most fastidious. Useful as well as Ornamental Items are cultivated to the greatest extent which a northern climate admits without artificial aids.

The items in this inventory are accurately counted, so as to offer only such items as are in fine condition, and ready for immediate planting, instead of, as is usual in the Catalogues generally published, specifying no particular quantities.

The quantity of items here presented is small compared with the ground in cultivation; arising from the fact that all imperfect articles, and all articles of insufficient size for orchard planting, are excluded; thus reducing the articles actually offered for sale to about one fourth or one fifth of those actually in cultivation.

He is induced to make this explanation on account of the diminutive appearance of his inventory, compared with some elaborate statements, of immense assortments offered by the largest nurseries in the world. His collection, limited as it may appear, occupies upwards of Two Hundred Acres.

The great care in packing, rendering the Trees perfectly safe for thousands of miles transit, has given entire satisfaction. The same precaution, labor, and expense, will still be devoted to the packing department; so that all, however distant from the Nursery, may confidently calculate on their orders being packed in the most approved manner.

Many items have been dropped, in consequence of their inferiority, or unsuitableness for a northern climate. He does not pretend to offer the largest Collection, but a nice selection of choice and profitable Fruits, the more valuable from their being select

For proper culture of Fruits, &c., see MOULSON'S “BRIEF INSTRUCTIONS ON ORCHARD PLANTING” &c., price 13c., and will be sent prepaid by mail on receipt of 15c. postage-stamps in a prepaid envelope.

A DESCRIPTIVE CATALOGUE

OF

FRUIT TREES

EVERGREENS AND FLOWERS,

CULTIVATED AND FOR SALE AT

LACLEDE NURSERY.

NEAR THE

LACLEDE STATION, (PACIFIC R. R.).

St. Louis County, Mo.

C. CONNOR, Proprietor,

SAPPINGTON POST OFFICE.

ST. LOUIS, MO.:

T. W. USTICK, PRINTER AND STEREOTYPHER,
78 Pine Street.

PREFACE.

In publishing this my second Catalogue, I beg leave to tender my thanks to my customers, friends, and the public generally, who have kindly assisted and patronized me.

Having aimed to make my establishment one of the most reliable and extensive in the Western country, I have devoted my whole time and attention, and have spared no pains or expense to make it such. Resting upon the ground of being thoroughly conversant with the nursery business in all its branches, and having now been a resident in Missouri for a number of years, I have paid particular attention to the varieties of fruit trees best adapted to Western soil, climate and market, so that it has enabled me to offer none but those that I can heartily recommend.

My Raspberry, Strawberry, Blackberry, Gooseberry and Currants, with my Evergreens and Flowers, are selected with the same care.

All trees, plants, &c., will be carefully labelled and packed in the best manner.

Each box or package will have the name and residence of the party distinctly marked and will be shipped as directed, but at the risk of the purchaser. A small charge will be made for packing. All articles will be delivered in St. Louis at the steamboat landing, or at any railroad depot, free of charge.

All orders should be accompanied by the money, or references given on some responsible person in St. Louis.

All letters should be addressed to me at the Laclede Nursery, Sappington P. O., St. Louis Co., Mo., or to the care of Landreth & Son, No. 18 South Main Street, St. Louis.

C. CONNOR,

*Laclede Nursery (Sappington P. O.)
St. Louis County, Mo.*

SELECT APPLES.

THE following varieties have been well proved, and can be recommended as *the best* among the hundreds of varieties now in cultivation.

DWARF TREES, for *Bushes, Pyramids or Espaliers*, can be supplied, of all popular and valuable sorts, on *Doucain* and *Paradise* Stocks. On the latter the trees are smaller, more prolific, bear sooner, and are therefore more desirable for small gardens. They can be planted 4 or 5 feet apart, and will bear abundantly the second year after planting. Where large *pyramidal* trees or low *standards* are wanted, the *Doucain* stock is preferable.

PRICES OF APPLE TREES.

Standard Trees, on Free Stocks, for orchards, 5 to 7 feet high..... 25 cts.

Dwarf Trees, on Paradise or Doucain Stocks, for gardens, 2 years from bud, 50 "

CLASS I.--SUMMER APPLES.

American Summer Pearmain. Medium size. Bears early and abundantly.—Sept; in use for several weeks.

Astracan Red.—Large. The tree is a vigorous grower, with large foliage, and a good bearer. Aug.

Benoni.—Medium size; flesh tender, juicy, rich. Very productive. Aug.

Bough Large Sweet.—Large, tender and juicy and abundant bearer. Aug.

Early Harvest (Yellow Harvest.—Medium to large size, sub-acid and a good bearer. Last of July to Aug.

Early Strawberry.—Medium size, with a mild, fine flavor, and a good bearer.—Middle to end of Aug.

Early Joe.—A beautiful and delicious, small sized, deep red apple, and a most profuse bearer. Last of Aug.

Golden Sweeting.—Large, yellow, a very fair, fine, sweet apple. A good bearer.—Aug.

Keswick Codlin.—Large, oblong, pale yellow, acid. Excellent for cooking. From July to Oct.

Lyman's Large Summer.—Large roundish, pale, yellow, rich and excellent.—Aug.

Primate.—Medium size, pale yellow.—Tree vigorous and a good bearer. Aug. and Sept.

Red June or Carolina Red.—Small or medium, deep red, good, productive, hardy. July.

Summer Rose.—Medium size. Tree rather a slow grower, but a good bearer. Middle to end of August.

Summer Queen.—Large, conical, striped and clouded with red; rich and fine flavored. Aug.

William's Favorite.—Large, oblong, red, rich and excellent, a moderate grower and good bearer. Aug.

CLASS II.--AUTUMN APPLES.

Alexander.—A very large and beautiful deep red or crimson. Tree vigorous and moderately productive. Oct. and Nov.

Autumn Strawberry.—Medium size, streaked light and dark red. Sept. and Oct.

Bohannan.

Cooper.—Very large, yellow, striped with deep red. Productive and valuable. Oct.

Dutchess of Oldenberg.—A large beautiful apple, and abundant bearer.—Sept.

Drap d'Or, or Cloth of Gold.—Very large, golden yellow; vigorous and productive.

Fall Pippin.—Very large. Tree vigorous, and a fine bearer.—Oct. to Dec.

Gravenstein.—A very large, striped, roundish apple, of the first quality, and very productive.—Sept.

Hawthornden.—A beautiful Scotch apple, medium to large size, pale yellow and red; excellent for cooking. Sept. and Oct. Resembles Maiden's Blush.

Hawley, (Dowse.)—Pale yellow, tender, rich. Tree is a fair grower, and bears well; originated in Columbia county, N. Y. Sept. and Oct.

Jesey Sweet.—Medium size, striped red and green; a strong, fine grower and good bearer. Sept. and Oct.

Maiden's Blush.—Medium size. Tree an erect and fine grower and good bearer.—Sept. and Oct.

Munson Sweet.—Tree a very fine grower and good bearer. Nov. and Dec.

Northern Sweeting, (Northern Golden Sweeting.)—A large, beautiful and excellent sweet apple; bears well. Nov. and Dec.

Porter.—Medium size to large; flesh tender and of excellent flavor. Tree a moderate grower. Sept.

Pomme Royal, (Dyer.)—Large, roundish, yellowish white, with a brown tinge next the sun; an abundant bearer. Sept. and Oct.

Pumpkin Sweet, (Pumpkin Russet.)—A very large, round, yellowish russet apple, very sweet and rich. Oct. and Nov.

Spice Sweet.—Large pale yellow, with a blush on the sunny side, quite waxen and beautiful, tender, sweet and fine; a good bearer. Sept.

Soulard. Oct.

CLASS III.—WINTER APPLES.

Baldwin.—Large, bright red, juicy and rich. Trees very vigorous and productive. Dec. to March.

Baily Sweet, Patterson Sweet. Very large, deep red, flesh tender, rich and sweet. Nov. to Jan.

Bellflower, (Bellefleur) Yellow.—Large yellow, with a tinge of red on the sunny side. The tree is a free grower, and a good bearer. Nov. to April.

Blue Pearmain.—Very large, dark purplish red. Oct. to Jan.

Belmont, (Gate.)—Large, pale yellow, with a red cheek; tender, mild and fine flavored. Nov. to Feb.

Everlasting Green. June.

Fallawater. (Fuldenwalder, Tulpehocken, Pound, &c.)—A very large and handsome, well marked apple. Bears young and abundant. Nov. to March.

Fameuse.—Medium size, deep crimson, flesh snowy white, tender and delicious. Nov. to Jan.

Green Sweeting.—Medium size; one of the very best long keeping sweet apples. Nov. to May.

Golden Seedling. Dec.

Hubbardston Nonsuch.—Large, striped yellow and red, tender, juicy and fine, strong grower and great bearer. Nov. to Jan.

King (of Tompkins Co.)—A superb, red apple of the largest size and finest quality.

Lady Apple, Pomme d'Api.—A beautiful, little dessert fruit, flat, pale yellow, with a brilliant cheek. Nov. to May.

Monstrous Pippin. Dec.

Michael Henry Pippin.

Northern Spy.—Large, striped and quite covered on the sunny side with dark crimson and delicately coated with bloom.—June.

Newtown Pippin.—One of the most celebrated of American apples, on account of its long-keeping and excellent qualities, and the high price it commands abroad.—Tree a slow, feeble grower, with rough bark. Nov. to June.

Ortley.—A large, oblong apple of the first quality. Tree erect, vigorous and productive. Dec. to March.

Peck's Pleasant.—Large, pale, yellow, with a brown cheek, approaching the flavor of a Newtown Pippin and a good bearer. Nov. to April.

Pennockred. Jan.

Pomme Grise.—Small, grayish russet, very rich and high flavored. Nov. to April

Rawles Janet or Janetin, (Never Fail.)—Medium to large size. One of the longest keepers and best apples in the West.

Rambo.—Medium size, streaked and mottled, yellow and red, tender, juicy, mild flavored. Tree a good grower and bearer.—Sept.

Rhode Island Greening.—Every where well known and popular; fruit rather acid, but excellent for dessert or cooking; keeps well till Jan.

Russet Golden.—Medium size, with a tinge of red on the exposed side; juicy and high flavored; bears well. Nov. to March.

Russet, Roxbury or Boston.—medium size to large. April.

Rome Beauty.—Large, yellow and bright red. Dec. to May.

Swaar.—Large, pale lemon yellow, with dark dots. Nov. to May.

Seek-no-further.—(Westfield) medium to large, striped with dull, red, and slightly russeted; tree a good grower and bearer. Nov. to May.

Spitzenberg, Esopus.—Large, deep red, with grey spots; flesh yellow, crisp, rich and excellent and moderate bearer.—Nov. to April.

Talman's Sweeting.—Medium size, excellent for cooking; tree vigorous and very productive. Nov. to April.

Twenty Ounce.—A very large, showy, striped apple, of fair quality. Oct. to Jan.

Vandervere.—Medium size, yellow striped with red, and becoming deep crimson next the sun, flesh yellow, rich and fine; tree a fair grower and good bearer. Oct. to Mar.

Wagener.—Medium to large size, deep red in the sun, flesh firm, sub-acid and excellent; tree very productive. Dec. to May.

Winter Pearmain.—Medium size, dull red stripes, on a yellowish ground. Nov. to June.

SELECT PEARS.

The following list includes most of those which have been tolerably well tested and proved valuable:

PRICES OF PEAR TREES.

Standard Trees, on Pear Stocks, 2 to 3 years old,	50 cts. each.
Dwarf and Pyramidal Trees, on quince, 2 years old,	"
Yearling Pear Trees, (1 year from bud), on quince,	35 "

SELECT CHERRIES.

PRICES OF CHERRY TREES.

Standard Trees, on Muzzard Stocks, 2 years old from bud, handsome, from 5 to 7 feet high,	Each, 50 cts.
Pyramidal Trees, on Malaheb stocks, 2 years old from bud, well branched from the bottom,	Each, 50 cts.
Dwarf Standards and Bushes, on the same stocks,	50 "

CLASS I.--HEART CHERRIES.

Fruit heart-shape, with tender, sweet flesh. Trees of rapid growth, with large, soft, drooping leaves.

American Amber.—Medium size, amber, shaded and mottled with bright red; tender, juicy, sweet and delicious. End of June till July.

Black Heart.—Rather large, black, tender, juicy and rich. Very prolific. Beginning of July.

Black Eagle.—Large, black, tender, juicy, rich and high flavored. Ripe beginning of July.

Black Tartarian.—Very large, purplish black, half tender, flavor mild and pleasant. Ripe last of June and beginning of July. One of the most popular varieties.

Belle d'Orleans.—Medium size, pale red and white, tender and delicious. Middle of June.

Coe's Transparent.—Medium size, pale amber red and mottled next the sun, tender, sweet and fine. End of June.

Downton.—A fine, large English variety; creamy, white and red, tender and fine flavored. Ripens with Black Tartarian.

Downer's Late Red.—Rather large, light red, tender and juicy; productive. Late.

Early Purple Guigne.—Small to medium size, purple, tender, juicy and sweet. 1st to middle of June.

Elton.—Large, pointed, pale yellow, nearly covered with light red, half tender, and juicy. End of June.

Gov. Wood.—Clear, light red, tender, and delicious. Tree a good grower and most productive. End of June.

Knight's Early Black.—Large, black, tender, juicy, rich and excellent. Middle of June.

White French Guigne.—A distinct and beautiful cherry, rather large, creamy, white flesh, tender and melting. Middle of July.

Sparhawk's Honey.—Medium size, roundish, light red, tender, sweet and delicious. Late.

CLASS II.--BIGARREAU CHERRIES.

These are chiefly distinguished from the preceding class by their firmer flesh. Their growth is vigorous, branches spreading, and foliage luxuriant, soft and drooping.

Bigarreau or Yellow Spanish.—Large, pale yellow, with a bright red cheek in the sun. Tree vigorous and productive. End of June.

Buttner's Yellow.—Medium size, pale yellow, flesh crisp, juicy and sweet. End of July.

Black Bigarreau of Savoy.—A large, glossy, black fruit. Middle of July.

Napoleon Bigarreau.—A magnificent cherry of the largest size, pale yellow, with a bright red cheek. Bears enormous crops. Beginning of July.

Rockport Bigarreau.—Pale red in the shade, light red in the sun. June.

Tradescant's Black Heart.—Very large, black, very firm, juicy, and good. A great bearer, and so late as to be very valuable. Middle and last of July.

CLASS III.—DUKE AND MORELLO CHERRIES.

These two classes are very distinct from the preceding.

Belle de Choisy.—Medium size, amber shaded, and mottled with red. End of June.

Belle Magnifique.—A magnificent, large, red, late cherry, excellent for cooking and fine for table when fully ripe. End of July. Very valuable.

Carnation.—Large, light red, mottled with orange; makes a fine dwarf. Middle and last of July. Very valuable.

May Duke.—An old, well-known and

excellent variety, large, dark red, juicy, sub-acid, rich. Middle of June, for several weeks.

Plumstone Morello.—Large, dark red, rich and fine; the best of all the Morellos. Tree a slender, slow grower; makes a nice bush on the Mahaleb. July and Aug. Valuable.

Reine Hortense.—French cherry of great excellence, large bright red, tender, and juicy.

SELECT PLUMS.

The Plum is almost universally cultivated as a standard, with a naked trunk five or six feet high. For gardens, low standards, with not over two feet of trunk, or pyramids are much more appropriate.

PRICES OF PLUM TREES.

Standard Trees, ... 50 cts. each.
Dwarf Trees, ... 50 " "

Bradshaw.—A very large and fine early plum, dark violet red, juicy and good. Very productive.

Bryanstone Gate.—A new English plum of excellent quality, greenish yellow, sweet. Tree of great vigor and productive.

Coe's Golden Drop.—Light yellow, flesh firm, rich and sweet, adheres to the stone. Last of September.

Dennison's Red.—Large, roundish, light red, flesh juicy and rich; parts from the stone. End of August.

Imperial Gate.—Large, oval, greenish: flesh juicy, rich and delicious; parts from the stone. Middle of August.

Lombard.—Medium size, oval, violet, red; flesh yellow, juicy and pleasant. End of August.

Magnum Bonum, Yellow.—A very large and beautiful, egg-shaped yellow plum. End of August.

Magnum Bonum, Red.—Large and beautiful, egg-shaped, violet red. End of August.

Orange.—One of the largest varieties, oval, yellow, rather coarse. Tree vigorous and very productive. Middle Sept.

Reine Claude de Bavay.—Of fine flavor; roundish, oval, greenish, marked with red in the sun. Remarkably productive. Middle to end of Sept.

Washington.—Large, roundish green, usually marked with red, juicy, sweet and good. One of the best. End of August.

Yellow Gate.—Large, yellow, oval; flesh yellow, juicy and rich. Middle of August.

SELECT PEACHES.

PRICE OF TREES, 25 CENTS EACH—ON PLUM STOCKS, 50 CENTS.

Alberge Yellow.—Large, deep yellow, with a dull red cheek; flesh yellow, juicy and rich. Beginning of September.

Cole's Early Red.—Medium size, mostly clouded and mottled with red; flesh pale, juicy, rich and delicious. Middle of August.

Coolidge's Favorite.—White, delicately mottled with red; flesh pale, juicy and rich. End of August.

Crawford's Early.—Large, yellow peach, of good quality. Beginning of Sept.

Crawford's Late.—A superb yellow peach, very large, productive and good. Last of Sept.

Druid Hill.—Large, greenish white and red, melting, rich, vinous. End of Sept.

Early York.—Greenish White, covered in the sun with dull, purplish red. Middle of August.

Early Tillotson.—Medium to large, white and red. Middle of August.

Early Newington.—Medium to large size, white, with a red cheek. Middle to end of August.

George the Fourth.—Medium white, with a red cheek. End of August.

Haine's Early.—Large, white, with a red cheek; one of the best varieties. Middle of August.

Heath Free.—A large, late peach, of medium quality.

Heath Cling.—Very large, creamy white; an excellent late variety.

Jaques' Rare-ripe.—A superb yellow peach, full as large and as good as Crawford's Early, and ripening a week or ten days later.

Morris White.—Medium size, dull, creamy white, tinged with red in the sun. Middle of September.

Noblesse.—Large, white, with a light red cheek, juicy, rich, and high-flavored; a moderate grower; young shoots mildew. Beginning of Sept.

Old Mixon Freestone.—Large, greenish, white and red; standard orchard variety. Middle September.

Old Mixon Cling.—Very large and excellent; one of the finest clings. End of September.

Snow Peach.—A beautiful fruit, medium size, skin and flesh clear, creamy white throughout. Beginning to middle of Sept.

Scott's Nonpareil.—A new, very large and fine yellow peach. Middle to end of Sept.

Stump the World.—Red and white, handsome, good size, and fair quality. End of Sept.

Ward's Late Free.—A fine, late Peach, resembling the Old Mixon. A week or two later.

SELECT APRICOTS.

The Apricot is one of the most beautiful and delicious fruits we possess; and its value is greatly enhanced by the season of its ripening—between cherries and peaches.

PRICE OF APRICOT TREES.

On Plum Stocks,

50 cts.

Breda.—Small, round, dull, orange, marked with red in the sun; flesh orange colored, juicy, rich and vinous; parts from the stone; kernel sweet. Tree hardy and prolific. End of July and beginning of Aug.

Moorpark.—One of the finest and largest apricots.

St. Ambroise.—One of the largest and finest apricots.

Turkey.—Large, rich, fine, a little later than Moorpark.

QUINCES.

Apple or Orange.—Large roundish, with short neck, or a bright golden yellow color; very productive. This is the variety most extensively cultivated for the fruit.

Ripe in Oct. Low standards, 50 cts.; Dwarfs, 25 cts.

Angers.—A strong, rapid growing sort, used for stocks to work the pear on; has fine, large fruit. 25 cents.

GRAPES.

CLASS I.—HARDY NATIVE VARIETIES.

PRICE, \$5 per 100, or \$20 per 1000.

Catawba.—Bunches large, loose, berries large, of a coppery red, sweet and musky. Hardy and productive.

like the Isabella, but a week or ten days earlier. \$1 each.

Concord.—A large, dark purple grape,

Diana.—A new variety, resembling the Catawba, but ripening two weeks earlier. \$1.

SMALL FRUITS.

CURRENTS.

Black English.—Well known; esteemed by many for jellies, &c. 12½ cents each; \$1 per doz.

Black Naples.—Similar in appearance and flavor to the preceding, but larger, (often measuring two inches in circumference,) and every way finer. 25 cts. each; \$2 per doz.

Champagne.—A distinct, light pink or flesh colored variety. \$1 50 per doz.

Cherry.—The largest of all red currents; 1½ to 2 inches in circumference; bunches very short; plants vigorous and

productive. 37½ cents each; \$3 per doz

Red Dutch.—An old, well known sort; a great bearer and of good quality.

Red Grape.—A variety of the red, with much larger bunches than the preceding.

White Dutch.—Well known. 15 cents each; \$1 50 per doz.

White Grape.—A very large variety; plant quite distinct from the other white sorts; a great bearer. 37½ cents each; \$3 per doz.

GOOSEBERRIES.

PRICE, 20 Cents each; \$2 per doz. or \$12.50 per 100.

American Seedling Gooseberry the branches literally covered; medium to
Houghton's Seedling.—A rapid, small, red, good; never mildews; very val-
 vigorous grower, and an enormous bearer, uable.

RASPBERRIES.

Antwerp Red, (of the Hudson River.) canes more spiny; very hardy and produc-
 —This is an excellent variety, and very tive. 20 cents each; \$1 50 per doz.
 popular in market. The berry is large, con-
 ical, dark red, rich and juicy; very early.
 10 cents each; \$1 per doz.

Antwerp Red, (Old.)—Larger, round-
 er and softer than the preceding, and plant
 more vigorous. \$1 per doz.

Fastolf.—Fruit larger and rounder
 than the Red Antwerp; of a purplish red; per doz.

Franconia.—Fruit very large, of a
 purplish red, rather darker than the Red
 Antwerp or Fastolf; canes very strong,
 hardy and productive. 20 cents each; \$1 50
 per doz.

Orange, (Brinkle.)—Large, orange yel-
 low, beautiful and first rate; hardy and
 very productive.; the best of this color. \$2
 per doz.

STRAWBERRIES.

Burr's New Pine.—Medium to
 large; light colored, productive, delicious.
 50 cts. per doz.; \$2 per 100.

Longworth's Prolific.—Large,
 handsome, good, hardy and productive; the
 most valuable of the Cincinnati varieties.
 50 cents per doz, \$2 per 100.

Scott's Seedling, (from Mass.)—Large,
Walker's Seedling.—Medium to
 large size, very dark crimson, good quality,
 hardy, and a good bearer; valuable. (From
 Mass.) 50 cts. per doz.; \$2 per 100.

Wilson's Albany. 75 cts. and \$3.

ESCULENT ROOTS.

Asparagus. \$1 per 100.

Rhubarb, (Myatt's Linnaus.) Largest
 and best of all. 50 cents each.

Rhubarb, (Victoria.) Very large and
 excellent. 50 cents each.

ORNAMENTAL TREES AND EVERGREENS.

PRICE Fifty Cents and upwards, according to size.

Abele, Maple Leaved. A tree of won-
 derful rapid growth, leaves large, lobed,
 glossy green above, and white as snow be-
 neath.

Carried forward

Bazil Wiley } Before Joseph P. Nesser
vs. } a Justice of the Peace,
John Thomas }

The Defendant moves the Court to suppress the Deposition of Henry Babcock, for the following reasons:

- 1st - Because there has been no legal service of the Notice,
- 2 - Because the Deposition does not show that said Babcock was duly sworn.
- 3 - Because said Deposition has not been certified by the Justice,
- 4 - Because the Justice has no authority to fill up blanks, or sign the same, now when the Cause is called for trial,
- 5 - Because the return on the Notice has not been sworn to,
- 6 - The papers attached, are not } A. Green
marked as exhibits } Atty for Defendant,
in the Cause, nor attached }
as the law requires, }

we the undersigned Bazil Hiney and Jas A
Real acknowledge ourselves indebted to John Thomas
in the sum of fifty dollars to be void upon
this condition whereas Bazil Hiney has appealed
from the judgment of Joseph P Hesser a justice of
the peace in an action between Bazil Hiney
plaintiff against John Thomas defendant; now if
on such appeal, the judgment of the justice be
affirmed or if on the trial anew in the appellate court
judgment be given against the appellant and he
shall satisfy such judgment or if his appeal
shall be dismissed and he shall pay the
judgments of the parties together with the costs
of the appeal, the recognizance shall be void

Summons issued returnable to the

in April 1860 on which day

was returned duly served and defendants agent applied

a continuance which is granted to next law day

the first of June; on this day this case is continued

by consent of parties to the next law day on the first

Friday in August. August 6th 1860, the parties

appeared and a jury being called, after hearing the

case, brought in a verdict for the defendant for

costs. Thereupon the justice rendered judgment in

favor of John Thomas against Basil Hiney for four

cents and costs. Aug 9th 1860 Basil Hiney applied

for an appeal which is granted on his filing

bond and affidavit

Before the jury was sworn defendant filed an

Sett off of \$144.40, credited with \$81.26 leaving a

balance of \$63.14 after the jury was sworn, and at

the trial plaintiff objected to defendant's Sett off of

upon the defendant filed an amended Sett off of \$88.90

both of which are accounts

State of Missouri in a certain
cause now pending in the Circuit
Court of Jefferson County, State
of Missouri between the above
named Plaintiff and Defendant
on the part of the Defendant

Norman I Coleman has produced Groover and examined deposits and says that he is interested in a Nursery for the sale of fruit and ornamental trees and Editor of the Valley Forum - I have been engaged in the nursery business about 5 years. I am well acquainted with the value of these plants and shrubs. They are more valuable when they are planted out and warranted, and where they change only for those that do live. Hybrid perpetual Roses

assorted by the choicest varieties
five to eight feet high planted
and warranted to grow of
that size and worth from
two to three dollars at least
say six years old - the height
does not make as much
difference in value as age
- such plants would be able
to be subdivided so as to make
20 or thirty plants as ordinari-
ly sold in nurseries. -

Ornamental plants about 5 feet
high would be worth about \$2
to \$3 - say about \$300 - planted
and warranted. - Extra large
Norway Spruce planted &
warranted would be worth
from \$4 to \$5 each - Large
Balsam of Peru would be worth
planted and warranted to live
would be worth \$3 or at least
- Double White Althea six
feet high planting the same
and warranting the same would
be worth at least \$2 - Peonies
very large Roots, as they generally
grow would be worth each
cluster, planted and warranted
say so that they could be subdivi-
ded in 20 or 30 plants would
be worth \$1.50 to \$2 or more
as the fine trees would be worth

planting and warranting \$1.50 to
 \$2.00 *Spirea Japonica* 6 feet
 high is worth \$2 each -
 Honey Suckle are worth 75
 each planting & warranting -
 This depends upon size - if
 large would be worth more -
 18 Tulip Roots, one *Oleander*
 and one *Salvia* planted and
 warranted would be worth
 \$5.00 - Extra large Snow Ball
 as much as 3 men could do
 to move them would be worth
 \$3 or 4 dollars. *Verbena* are
 worth 15 to 25 cents - all the
 above to be planted and war-
 ranted and not to collect for
 any that do not live -

crop of

I have a nursery in partner-
 ship with Samuel Sanders &
 furnish the Capital and San-
 ders does the work - I never
 saw the plants in question &
 only give my testimony on
 the questions asked as to price
 and size. If they are not of the
 description and size they are
 worth less than the prices
 I have named. I know nothing
 about the matter in
 controversy. The planting and
 warranting plants adds to the

the prices charged for the plants -
that is for the ordinary plants -
larger ones are more valuable
- I believe I am well acquainted
with the prices charged by the
nursery men in the St Louis Mar-
ket - I am acquainted with
the Bloomington nursery
their prices are lower than
the prices charged by the St
Louis nursery men - they have
had a depot in St Louis - they
sell lower here in St Louis
than the St Louis nursery men
- I know W & B Coleman
nursery on Market St. - they
grow their plants here -
Charles Connor has a nursery
also 8 or 9 miles from the City
Gochel has a Green House here
I knew Thomas Estabroth-
ment here in St Louis, I don't
know it in Jefferson County
- Most of the articles named
in my Direct Examination
are not ordinarily kept for
sale by nursery men in St Louis
for sale -

Witness looks at Bloom-
ington Catalogue and says
the prices mentioned therein
are for ordinary plants much
smaller than those which

have been described to me
with no charge for planting
or watering. I have seen
plants of the size and descrip-
tion referred to me in my
direct Examination in
Thomas nursery before he
removed to Jefferson County

Re-Examined

I have been speaking of prices
for plants to be planted out
here - to remove them to
Victoria and plant them
would be worth more
than I have stated - I do
not know where these
were taken from
Norman Holman

This deposition is taken by consent
both parties by their attorneys - the
Pliff personally present

I, Peter W. Johnston a Notary Public within
and for the County of St. Louis in the State
of Missouri do Certify that in pursuance
of the appearance of Plaintiff and
defendant by their respective attorneys
who consented to take the foregoing
deposition came before me at my
office in the County and State

last aforesaid Norman S. Colman
who was by me sworn to testify the
whole truth of his knowledge touching
the matter in controversy aforesaid
that he was examined and his
examination reduced to writing and
subscribed by him in my presence
on the day between the hours and
at the place in that behalf first aforesaid
and his said deposition is now
herewith returned

Given at my office in the
County of St Louis and State of
Missouri this 17th. day of december.
1860.

Peter W. Johnston
Notary Public.

of J. L. Thomas
Opened & filed
Decr 15th 1860

Winey
or
Thomas

The Court instructs the Jury that if they find from the evidence that Thomas agreed with Winey to furnish the plants, and plant out a flower garden at his place in Victoria for the purpose of advertising his business, and giving a reputation agreeing that Winey should pay him only such sum therefor, as he might feel disposed, then they will disallow those items of the Defendants account

But if they find that the Defendants sold the shrubbery to the Plaintiffs without any agreement as to the price then they will allow him the reasonable value of such shrubbery

Hiney's Account

Bazile Henry } In the Circuit Court of
vs. } Jefferson County and
John Thomas } State of Missouri

Depositions of witnesses produced sworn
and examined on the 17th day of December
1860 between the hours of eight o'clock in the
forenoon and six o'clock in the afternoon of
that day at my office in the County of St. Louis and
State of Missouri before me Peter W. Johnston a
Notary Public, in a certain cause now depending
in the Circuit Court of the County of Jefferson
and State of Missouri between Bazile Henry
Plaintiff and John Thomas defendant
on the part of the Plaintiff

Hannibal Bartles being pro
duced sworn and examined
deponent and Laith that he knows
the parties to this suit. I have
worked for W. Thomas in St.
Louis and Jefferson County
I know the Shrubbery spoken
of by the witnesses in the ~~deposition~~
depositions. I helped to
set it all out. Thomas
moved his nursery from St.
Louis to Jefferson County.
The nursery is about a mile
from Victoria. The trees
were set out in 1858. The
Roses ~~spoken of~~ ^{planted out} were from six

to Eight Inches high and one
was about Twenty Inches high
not higher - I knew the prices
he sold Roses for - The Roses
~~were~~ set out there were not
worth more than 75 Cents at
most - they were not war-
ranted - 75 Cents includes
the price of the plants and
the setting out - The plants
might have been two years
old. ~~most of them~~ moving
down from this nursery
to Jefferson County in bad
weather and the Rain
washing the Roots out
killed them - I can't tell
how many Roses were
set out - I helped set out
the Arbor Vitae - They were
a poor tree about 3 feet
high - they would be worth
set out about 75 Cents.
each -

Question. Did Mr Thomas
have the best quality of trees
to sell

(objected to as leaving and
immaterial)

Answer - he did not

Question - Why

(objected to as immaterial)

Answer because they did
moving them down there

~~The~~ Norway spruce planted out
 there was about two feet high
 and ~~was~~ worth not exceeding
 six cents planted out - The
 Buxus was about two
 feet or $2\frac{1}{2}$ high and was
 worth about 75 cents -

The Altheas were about 4
 feet high - worth \$1.00 planted
 out (each) - The pine plant
 (2 of them) are worth 50 cents
 each, they were not very large.

The Mountain Ash were
 worth about 75 cents each
 about 6 feet high - Spira Ja-
 ponica - is a plant worth
 about 50 cents - The Honey
 suckle, that died - it was
 worth 35 cents if it had lived.

The Cleome - I can't recollect
 the size - it was worth about
 75 cents - I don't recollect
 any thing about the Salvia
 - The Tulips (I don't recollect
 any thing about them - I don't
 know any thing about the
 prices - Mr Thomas did not
 sell any when I was with
 him - I did not see any in
 Hines Garden that I know
 of - The Verbena is worth 15
 or 20 cents each - Dahlias may
 be worth from 75 to \$1.00 - I sold
 them out - They are middling

sign. I was at Victoria with
Mr Thomas in 1859. in January
when he moved down there
Mr Thomas boarded at Hines
at that time - ~~some~~ in the
first place - Thomas and my-
self boarded there 4 months
Thomas still board on after
I left - Thomas Moore was
kept there 3 or 4 months
- Mrs Thomas and Alfred his son
boarded there when ~~they~~ I can-
not tell how long Mrs Thomas
boarded at Hines - I was on
Thomas place part of the time
and went over to Hines and
took meals there. ~~I~~

Bill shown to Witness
and he was requested to state
what he knew about the chan-
ges in the bill.

(Came for the defendant
objects to the paper going into
his hands of the witness. it not
being in his hand writing -
and witness says he never saw
the paper before) objects
to witness speaking from
the paper)

I believe this bill is correct
as far as I know.

Question do you know
about the items

Further State what you
know ~~about~~ ~~your~~ ~~know~~ about
the items charged in this bill
/ cannot be left object to the wit-
ness speaking from the paper it
self or Examining it to refresh
his memory - but does not object
to his stating his knowledge of
any matter to which the pa-
per relates -)

Answer - I know the charge
for the two doors are correct without
reference to the paper - I think
he had the house about two
months - I expect it was worth
about \$5 per month - I boarded
~~there~~ took meals there and
boarded there by the day in
May - They always charged us
25 cents a meal - That is a
fair charge - I cant tell
how many days I boarded
there - but think 8 or 9 days
the charge is 75 cents a day - that
does not include lodging -
I know Alfred Thomas took
meals there in May, June &
July - he staid over night there
several nights 4 or 5. Supper and
breakfast and Lodging is 75 cents
When myself and Thomas first
went down river took a House
down with us - we were there
2 or 3 weeks before Mr Thomas
came down - the charge was

9 Days boarded
by Thomas -

horse /
50 cts
middle

\$3 a each for me and Thomas with
out the horse - the charge for
the horse was worth from 50 to
60 Cents a day - When Mr Thomas
as came down there was three
of us. I don't recollect of any
more - I know Thomas
got beef there and bread
also. he got some mutton
Mr Thomas board there till
14th or 15th May after she came
there - Thomas boarded
there too - the usual price
for board there was \$3 - per
week - Alfred Thomas was
here off an on - I recollect
Thomas put without cooking
at the paper

Crop Examined

Left Thomas employ on
the 18th or 20th July 1859 - I left
because he did not give me
enough wages - he paid me
\$14 per month - I was a com-
mon laborer - I went into
his employ in the fall of
58 or 59 - I think it was 59
- I had never been in any
nursery business until I
went into his employ - the
reason I say the plants were

3)

+

2

X

6

not warranted to live was
because I heard there was
King the bargain - Thomas
said he would do a good job
and set out the best he had
said get his name up - but
they say they want much
I was one day sitting out
the plants there was me and
Thomas - no body else helped
we took them up and set
them out the same day
Alfred was over to the Shalite
Thomas moved his nursery to
Jefferson County in May
and June 1859 - the plants
and shrubs were set out
in the latter part of May
- The plants and shrubs that
were planted for him were
merely laid in the Green
House and not planted out
I say we took them up and
planted them out the same
day because it was not much
trouble as they merely lay in
the Green House - I never
had any trouble with Thomas
as I never quarrelled with
him - I am good friends with
him - the same as I am with
Thomas - I came here vol-
untarily - I live here with
my Mother - I have not
been in the nursery business

Since I was with Mr Thomas
I have set out other shrubs
and plants. while with Thomas
I set out for George R. Taylor
also in Carondelet - I had
not then and have not
now the knowledge of the
market value of such
articles set out - I recollect
the size of the trees and plants
set out but I don't know
the age - I don't think any
of the Roses were so much
as 6 years old. we divided
the Roses into 3 or 4 plants
only - Thomas told me the
best plants he had were
worth 50 cents a piece at
the nursery - that is the
price he sold them at -
those that were planted
for five were better be-
cause better Root and
more fibrous - He did
not say whether those
he sold for 50 cents were
from cutting or layers or
not, and I did not take
particular notice - there
was no Rose planted out
here that were 5 feet high -

None of the other vitas were
 5 feet high - The Norway spruce
 was maybe 2 feet high - Thomas
 never gave the plants any atten-
 tion that I know of - ~~The~~
 tops of the Roses were all
 cut off - before they were
 cut back they might have
 been as much as 4 feet
 high - ~~the~~ tops were dead
 The tops of all ~~the~~ choice
 Roses planted out, are killed
 in the winter - the killing
 of the tops don't hurt the
 plants - I had no conversation
 with him on this subject -
 I know that Alfred bounded
~~there~~ an account of W Thomas
 I know it by experience - there
 was 2 or 3 Dahlias planted - the same
 Anemones, 4 Biscainas - 2 snow-
 balls - the snowballs were
 small - I expect the price
 would have been higher
 if warranted - Thomas
 laid off the ground where
 the plants were put out -
 It is worth more where the
 ground is laid off. Thomas is
 a professional gardener and
 follows that business

Testimony relating to laying
 off the ground objected to by Puffin

Question - Where is the place
Thomas laid out for putting
down these plants

Answer - In front of the Hotel
between the House and the Rail
Road - the plants were all
set out there and no where
else -

3 Question - What was the time
and labor worth for laying out the
ground and setting out the
~~ground~~ plants -

Objected to that part of set-
ting out the plants as not
growing out of the cross exam-
ination

4 Answer - about two
dollars - there was two of us
commenced about 9 o'clock
and had it done at 3 - we
spent the day anyway - Mr.
Thomas had a Catalogue of
prices. I was not familiar with
all his prices, but was famil-
iar with some of them -

4 Question - Did Mr. Thomas
have any Roses that he charged
more than 50 cents a piece
for -

Objected to as not growing out
of the cross examination and
is immaterial

Answer - Not that Rose

or

5
Question State whether or not
the prices which you have named
as the value of the Shrubbery in
question was the same as Thomas
charged other people for the same
kinds of Shrubbery

(Objected to as not fair
and of the crop, Examination
and is immaterial

Answer - I believe it is
near about

Re-Crop Examined

I know same prices Thomas charged
for same - Ming where he planted
them out - for Grape vines for
same Shrub - Chinese Aboret
I know he charged 50 cts each
for fur & spruce he charged from
75 to \$1 - where he set out
Pines from 75 to a dollar ac-
cording to the price - some
colored or General living down
at Videpouch - Thomas and
Alfred helped - I was working
for Thomas by the month -
I don't know whether he charged
extra for the labour
Samuel B. Carter

As our L. Stebbins being pro-
 duced sworn and Examined de-
 posited and said that he is now
 employed with the Plant & Broth-
 erly with A. W. Elliot - They
 are Elliott is in the seed and
 nursery business - I was acquain-
 ted with the prices in this mar-
 ket of trees and plants & garden
 shrubbery in the season of 1854
 nursery size of Rose bushes were worth
 50 cents each - This depends however
 upon the kind - perpetual hybrids
 that have been cut back, ~~two~~
~~the year old~~ were worth
 about that price. Some va-
 rieties sold for more - when
 you put the term perpetual
 hybrids, I ~~have~~ can't speak
 understandingly in relation
 to them - for the last six
 months I have not paid
 much attention to them.
 We had that species of Rose and
 I sold them at 50 cents -
 Aboretas 2 feet and a half, to
 3 feet are worth \$1 - to 1.50 depen-
 ding to the quality of the shrub.
 If there was a considerable of a
 bill made with the other nursery the
 price would be reduced - or not.
 Question - State whether, Asher
 Vitae ~~are~~ ^{are} ~~not~~ sold for
 less than the prices you have
 named -
 A - I don't know what they

are sold for now - I have known
them sold for less than that

Norway Spruce from two
to 3 feet high is worth \$1.50 -
a fur from 2 feet to 2 1/2 feet high
is worth from \$1 to 1.25 at the
2, 3 or 4 feet high we used to sell
from 50 to 75 cents - Pines ~~are~~
we sold at about 50 cents - the
Mountain Ash I have sold
from 50 to 75 cents - 6 feet high

Spina Japonica we used to sell
from 50 to 75 cts - Honey suckle
from 25 to 75 - Tulips ~~were~~
vary in price - they might be worth
75 cents - they vary according
to variety - Clematis I have
seen worth from 50 to \$3.00
we have sold them for 50 cts
some are worth a great deal
~~more~~ I never saw them
sold for \$3.00 - I have seen
those that were worth that
and would probably sell
for that Berberis are worth
from - 1.25 to 1.50 a dozen -

~~Exposition~~ In setting a little
Dailies are worth about \$3.00
a dozen - in setting a little of
the articles mentioned I think
the prices mentioned would be
a fair price

Crop Examined

The prices I have mentioned are for the ordinary nursery plants without reference to setting them - and or warranting them living - The best variety of Hybrid Roses, 6 years old planted out and warranted to live would be worth from 25 to 50 per cent additional from the prices I have named - a Rose of a large clump might be worth \$2.00 or Arbor Vitae 5 feet high - handsome plant would be worth \$2 - planted out and warranted - An Extra Norway Spruce planted out and warranted might be worth \$3.00 a large Balsam of Fir planted out and warranted 5 feet high would be worth \$3 - double white Altheas would be worth \$1.25 planted & warranted - they might be worth \$2. but that would be for a choice plant -

Pearus, large planted and warranted might be worth \$1.50 but then would be larger than are usually sold - Mountain ash - a large one would be 150 and a very large size might be worth \$2.00 - Japanese Sophora might be worth if long-stemmed \$2.00 Honey suckle planted out and

warranted would be worth from
75 Cents to \$1.50 Tulips planted
in May and warranted would be
worth from 40 to 50 Cents Alexander
would be worth from 75 to \$3 each
Extra large Snow-balls such as
as two or three men could bear
all would be worth from 1.25 to
\$2.00 it might be an extra design
and be worth \$3.00. When I
say plants have been sold
for less than the prices I have
named in my direct Exam-
ination. I have reference to
articles sold under a pressure
of the Market and not sold in
the Regular way - the price of
all these articles depend upon
the size, quality and variety of
the articles - as to I could not
tell what the value of the arti-
cles in question are without
examining them

O. J. Stephens

Friedrich Rudolph being pro-
duced and sworn deponent and said
that he is acquainted with the
parties I am a Nursery and said
I work in St. Louis - I have worked
5 years - I worked 3 years for Thomas
in St. Louis and St. Louis & Jefferson
County - I know the shrubbery
and plants which Thomas set

ant for Him in Victoria -
 I know the Value and price of
 that Kind of Shrubby - The
 Roses were worth 50 Cents
 each - the Abor Vitae were
 American - they were worth
 from \$1 to \$2. The Norway Spruce
 was worth from \$1 to \$1.50 The Bal-
 sam of Gum was worth from 50
 cents to \$1.00 These are the prices
 they were delivered at - the
 Althea were worth from \$1 to
 1.50 The Pines were worth 25 cts -
 The Mountain Ash was worth
 50 Cts - the Spira Japonica is worth
 about 75 cts - at that time - Thomas
 sold his Tulips from 20 to 25 a Root
 The Snow ball was worth from 75
 to \$1.00 - The Hibernia are worth
 \$1.20 a dozen is the highest price -
 The Delicias are worth 25 Cents
 each - I saw the plants last
 week at Victoria - I speak of
 the prices at the present time -
 they were worth less two years
 ago when they were set out -
 I know the Garden

Question - What in your o-
 pinion would be a fair compen-
 sation for furnishing the shrubbi-
 ng and setting it out in Henry
 Garden

(Objected to by atty for Dept.)
 Answer The highest price would

from \$30 to \$35-

Crop Examined

I was not there when the shrubbery was planted out - I don't know what Thomas did plant for Hine. I saw the plants last year and I saw them this year - the Roses were worth in the Nursery 50 cts to transplant them and worth them are worth 50 cts they are not worth any more transplanted - I am a gardener. I got a dollar a day with Thomas and boarded my self - I have helped to plant out trees and shrubbery - mostly for American people - I have sold them and planted them out. I worked for Thomas in Jefferson County last year and year before last - worked 6 mos. I went down to Victoria last week - I was in the Hotel and saw the plants - I did not know of any saw scit them. Hine asked him what he would charge to plant them - that is the way my attention was called to them - I live now in St. Louis. Hybrid Perpetual Roses 6 years old planted out and warranted good ones are worth

\$2.00 Aborvitar 5 feet high
 planted out and warranted
 are worth 2 to 3 dollars - Extra
 large Norway Spruce planted
 out and warranted is worth
 \$3 - Balsam Fir planted
 out and warranted is worth
 \$2.00 - Scumble white Althea
 6 feet high from \$2 to 2.50
 Prunus large Roots 25c to \$1.00
 could not be worth \$2.00 Large
 Mountain Ash worth \$1.00 or 1.25
 Spiraea Japonica 6 feet high \$1.00
 \$1.25 Honey Suckle from 25¢ to
 \$1.00 all these to be planted
 out and warranted

Re-Examined
 Question - What was Thomas
 selling the same kind of Roses
 for to other parties

(Objected as not growing
 out after crop examination
 and as immaterial

Answer - He was selling
 them for 50 to 75c

The Aborvitar were from
 2 to 3 feet high - The Norway Spruce
 was about 3 feet high - The
 Balsam Fir was from 3 to 4
 feet - the Altheas were from
 2 to 3 feet The Ash was 8 to 9 feet

Objected to by Council
 from 50 to 75c -

objection - to

The *Spina Lufenia* was from
two to 3 feet high - I saw the
Shrubbery one year after it
was put out - that is the
Garden in front of the Hotel

Question. Do mean to say
that in your opinion \$35-
dollars is a fair compensa-
tion for all the plants you
saw in the Garden

Answer. For thirty five
dollars I would do it better

Sept. Attorney objects to

Received opened and filed

Decer. 18th 1860

Chas. A. Mowrey Clerk

Bazile Hoiny } Before
vs. } In the Circuit Court of
John Thomas } Jefferson County and State
of Missouri. Depositions of witnesses produced
sworn and examined on the 17th day
of December 1880 between the hours of
eight o'clock in the forenoon and six
o'clock in the afternoon of that day at
my office in the County of St. Louis and
State of Missouri before me P. W. Ashmun
a Notary Public in a certain cause
now depending in the Circuit Court of
the County of St. Louis in the State
of Missouri between Bazile Hoiny
Plaintiff and John Thomas
defendant on the part of the
defendant.

Eliphaz B. Colman being
produced sworn and examined
— I am a Nursery man — have
been engaged in St. Louis 5 years
have been only 2 years previous-
ally engaged in that business
— I am well acquainted with
the prices of Shrubs and plants
in St. Louis — I have been 25
years in the business altogether
Hybrid perpetual Roses planted
out and warranted of good
quality would be worth more

\$1⁵⁰ to \$2⁵⁰ Aboretas would
be worth from \$2 to \$4.00 It
depends upon the plants. Extra
large Norway Spruce - 4 feet
high well furnished would
be worth \$3 - the usual plant
planted out would be worth
\$2 - large Balsam Tree would
be the same as Spruce - Some-
times white Althea would be
from \$1 to \$2⁵⁰ Pean. ~~2⁵⁰~~
~~50~~ large worth \$1 - Range
from 50c to \$4 depending
upon the variety - Mountain
Ash - 9 or 10 feet high worth \$2
Spirea Japonica 6 feet high from
\$1 to \$3c according to the plant
Honey Suckle from 40c to \$1.00
according to the plant - Tulip
Roots (18) are Oleander - and
Salvia would be worth from
\$3 to \$5 - in all Extra large Snow
ball would be worth from \$1.50 to
\$3.00 - Virbina worth from ^{about} 1⁵⁰
to \$1.50 all the above prices
are upon the supposition of their
being planted and guaranteed -
the additional charge for laying
out and planting and guaran-
teeing is from 25 to 50 Cents
with an additional charge 7

of \$250 a day for Experienced
hands to set them out - the
Cay ingant the Grounds would
be additional to it -

Crop. Examined

It would be impossible for
me or any other person to tell
what these things would be
worth without examining
them - ~~I mean by guaranteeing~~
I never guarantee except
where I plant - our charge
for guaranteeing depends
upon the Ground - for these
kind of plants 25 per cent
would be about a fair price
- A Rose would depend upon
the plant and upon the
variety - The nursery price is
from 50 cts to \$1.00 - Arbor
Vita depends altogether upon
the plants - such stock wants
to be seen at the time it is
planted and can't be told
a year after what it is worth
Some deductions are made when
bills are made of this size -

E. B. Coleman

I Peter W. Johnston a Notary Public
